PRE-PROCEDURE PATIENT QUESTIONNAIRE

- 1. Do you have diabetes? If so, do you take insulin or oral medication?**
If yes: Patient must speak with the prescribing doctor to inform him/her that patient will be on a clear liquid diet and determine how insulin or medication needs to be adjusted
- 2. Do you take antidepressant medications such as Nardil or MAO inhibitors?**
If yes: Standard antidepressants can continue to be taken. If they are on MAO inhibitors, get name and speak with our doctors.
- 3. Do you take anticoagulants (eg: coumadin) or aspirin?**
If yes: Patient needs to call the prescribing physician to see how many days they can SAFELY be off of the medication, not including the day of the procedure. Patient needs to be sent (or given) an RX for a STAT PT/PTT to be drawn and reported to us the day prior to the procedure.
- 4. Do you have a tendency towards bruising? Do you have any bleeding disorders such as hemophilia or Von Willebrand's disease?**
If yes: _____
- 5. Do you require antibiotics before undergoing medical or dental procedures?**
If yes: An RX for an antibiotic and instructions needs to be sent or given to the patient.
- 6. Do you have any artificial joints or artificial heart valves?**
If yes: An RX for an antibiotic and instructions needs to be sent or given to the patient.
- 7. Have you ever had heart valve surgery:**
If yes: An RX for an antibiotic and instructions needs to be sent or given to the patient.
- 8. Have you ever had rheumatic fever, rheumatic heart disease or congenital heart disease such as mitral valve prolapse?**
If yes: An RX for an antibiotic and instructions needs to be sent or given to the patient.
